INTRODUCTION

This survey is being conducted by one of the nation’s leading social services organizations for children. They’re trying to better understand Americans’ experiences and attitudes with regard to childhood bereavement so they can better serve grieving children and their families. It should take about 20 minutes to complete. We know some of these questions are of a sensitive nature, but your candid assessments and responses are critical. Please try to answer every question. Please be assured, this is anonymous research and your responses will remain strictly confidential.

1. In what year were you born? Please enter your response as a four-digit number (for example, 1977). ____ ____ ____ ____ **[IF UNDER AGE 25, TERMINATE]**
